Skills

Technical Skills

-Web Development-

JavaScript, TypeScript, React, Next.js, Tailwind CSS

-UI/UX-

Figma, Adobe XD

-Data Analysis-

Python, SQL, PowerBI

-API Integration-

Postman, RESTful APIs

-Version Control-

Git

-SEO & Performance Optimization-

SEO best practices, web performance tuning

Soft Skills

Communication, Problem-solving, Adaptability

Certifications

AI Augmented Professional Development

ALX

August 2024

Certificate Of Completion

Summary

Frontend Developer with Expertise in Building High-Performance Web Interfaces

Proficient in JavaScript, TypeScript, React, Next.js, and Tailwind CSS, I specialize in translating UI/UX design wireframes into responsive, scalable web applications. I focus on delivering high-performance, cross-browser-compatible interfaces, ensuring technical feasibility and seamless functionality. With a deep understanding of HTML5, CSS3, and modern frontend development trends, I am skilled in optimizing web applications for speed and scalability. My collaborative approach and attention to detail enable me to work effectively in fast-paced environments, creating user-centric solutions.

Experience

Decipher Innovate

Frontend Developer

Frontend Developer, Decipher Innovate

At Decipher Innovate, I led a project utilizing GitHub for version control, translating Figma designs into seamless, responsive UIs. I independently managed and executed multiple projects, leveraging React to build and deploy web applications. I also collaborated with backend engineers, integrating APIs to efficiently handle and display data on the frontend. My role involved ensuring the applications were optimized for performance, scalability, and cross-browser compatibility, while maintaining a high standard of user experience.

JavaScript Tutor

JavaScript Tutor, Decipher Innovate

As a JavaScript tutor at Decipher Innovate, I taught students through hands-on, real-life projects, focusing on key concepts such as working with APIs, section handling, and creating engaging user interactivity. My approach emphasized practical learning, helping students understand core JavaScript principles and apply them effectively in building interactive, dynamic web applications. I ensured that learners gained a deep understanding of the language while developing problem-solving skills crucial for modern web development.

Python Tutor

Python Tutor, Decipher Innovate

As a Python tutor, I guided students through practical, project-based learning, emphasizing real-world applications of Python. I covered essential topics such as data structures, algorithms, and problem-solving while helping students build a strong foundation in Python's core principles. Through hands-on projects, I demonstrated how to work with libraries, manage data, and apply Python to various use cases ensuring learners were well-equipped to solve complex programming challenges and develop scalable, efficient solutions.
